

Novartis Patient Support™

IS YOUR PATIENT'S SIGNATURE MISSING FROM THE NOVARTIS PATIENT SUPPORT START FORM?

No problem.

Patients can easily sign electronically by following these simple steps:

- 1 Go to HIPAAconsent.com and complete user information
- 2 Enter “**COSENTYX**” in the Medication Selection section
- 3 Provide their authorization
- 4 Receive confirmation

The authorization will be submitted to Novartis Patient Support electronically, and the Start Form will be processed. The sooner we receive the patient's authorizing signature, the sooner you can get your patient started on COSENTYX®.
