People who sign up and are eligible for Co-Pay Plus* for VANRAFIA may also use it to help lower their out-of-pocket costs to as little as \$0.

Co-Pay Plus helps pay for your treatment if you have private insurance. With Co-Pay Plus, you may pay a lower out-of-pocket cost for VANRAFIA than with your insurance alone.

Check www.vanrafia.com to learn more about available offerings.

***Limitations apply.** Up to a \$15,000 annual limit. Offer not valid under Medicare, Medicaid, or any other federal or state health insurance program. Patients with private insurance and a prior authorization requirement or an initial denial of coverage may receive up to 12 months of free product while coverage is pursued. Novartis reserves the right to rescind, revoke, or amend this program without notice. Additional limitations may apply. See complete Terms & Conditions at www.vanrafia.com for details.

What if I don't have insurance?

Novartis Patient Assistance Foundation, Inc. (NPAF), an independent 501(c)(3) non-profit organization, provides Novartis medications free of cost to eligible patients who have limited or no prescription insurance coverage and cannot afford the cost of their medication.

To be eligible for NPAF, you must:

- ▶ Be treated by a licensed US health care provider on an outpatient basis
- ▶ Meet income and insurance guidelines

Visit www.PAP.Novartis.com or call NPAF at 1-800-277-2254 to learn more about eligibility and how to apply.

***The Bridge Program applies to VANRAFIA only.** Eligible patients must have private insurance and a valid prescription for VANRAFIA, and a prior authorization or an initial denial of coverage. A valid prescription consistent with FDA-approved labeling is required. Program is not available to patients whose medications are reimbursed in whole or in part by Medicare, Medicaid, TRICARE, or any other federal or state program. Patients may be asked to reverify insurance coverage status during the course of the program. No purchase necessary. Program is not health insurance, nor is participation a guarantee of insurance coverage. Additional Limitations may apply. What does that term mean?

Sometimes terms come up as you're getting started on treatment that you might not recognize. Use this glossary to help.

Appeal: A request for your insurance company to reconsider its decision about denying coverage of your medication.

Benefits Verification: This is when the insurance company reviews your coverage. This may identify a need for a prior authorization or what out-of-pocket costs may be for this prescription.

Co-Pay: A predetermined, fixed amount you pay for your medication after your health plan covers a portion of the total cost.

Co-insurance: The percentage of covered medical costs you'll pay after you've reached your deductible.

Deductible: The amount you pay for a prescription before your insurance starts to pay its portion of the cost.

Formulary: A list of prescription medications covered by a prescription medication plan or another insurance plan offering prescription medication benefits.

Government insurance: Insurance reserved for specific groups of people (eg, senior citizens, persons with low income, persons with disability, current military and their families, government employees, and some federally recognized Native American tribes) and funded by the government. Medicare, Medicaid, TRICARE, and the Veterans Health Administration program are all examples of government insurance.
